

IACP's Mission Fund

Through the generous support of our members, the International Academy of Compounding Pharmacists is able to accomplish its three-fold mission of **protecting, promoting and advancing the art and science of pharmacy compounding**.

Our vision for IACP is to have relevant programs engaging volunteer leaders in each area of our three-fold mission to:

- Remove regulatory barriers or threats to ensure you can meet your patients' needs.
- Enhance the reputation of your practice by creating accurate perceptions of pharmacy compounding by continually engaging media, decision-makers and opinion leaders.
- Strengthen your practice through research, best practices, recommendations, and accreditation of pharmacy compounding sites.
- Ensure you are fairly paid by creating a new reimbursement model for pharmacy compounding.

We must have mechanisms to develop necessary resources to fund and expand the programs that will help us achieve our goals. Programs are continually assessed to ensure that they are the most relevant, most efficient and most effective in helping to fulfill our mission.
